

Self Finish Boats Limited

Product Guide

The Largs Skiff GRP hulls are all built to adhere to Lloyds rules both in terms of products used and design specification.

The Hulls are 18ft (5.48m) in length with a beam of 5ft (1.52m)

Custom Built Option

From £2995

The custom-built options include a non-slip deck, foam filled buoyancy tanks, rudder and tiller, fitted gunwales and thwarts. The choice of finishing in either Larch, Mahogany or Oak is available. We would also fit a keel band in either brass or stainless steel. Rowlocks and leather collar oars are also an option. The choice of hull colour and internal colour, colour of the non-slip deck would also be up to the customer. If the Largs Skiff is to be used for sailing we can also include a dagger board fitting, mast, sails and riggings of the customer's choice. The best starting point in commissioning a custom-built option is to email or call us to begin the process.

Mid-Finish Option

£1895

The mid finished option has a fitted deck and foam filled buoyancy tanks. The choice of hull colour and internal colour, colour of the non-slip deck would be for the customer. A dagger board fitting is also an option if the Largs Skiff is to be finished as a sailing boat. If you want the dagger board option, please contact us to discuss this option. The boat would then require finishing with wooden gunwales, and thwarts as a minimum. A rudder and tiller would also

be required. This option would suit someone who wanted to utilise or develop their carpentry skills to achieve their desired finish.

Basic Self Finish Option

£1395

The basic Self Finish option is a bare hull without a deck or any buoyancy tanks. The fitting of buoyancy tanks and either a permanent or removable deck boards would be required. The choice of hull colour and internal colour, colour of the non-slip deck would be for the customer. A dagger board fitting is also an option if the Largs Skiff is to be finished as a sailing boat. If you want the dagger board option, please contact us to discuss this option. This option would suit someone wanting to do as much of the fitting out as possible.

Wooden finishing kit

£145

We can provide a Larch finishing kit for the thwarts and gunwales. These come planed and ready for sanding. The gunwales pieces are pre-scarfed for joining with epoxy. Please note that all pieces in this kit are slightly over sized and will require minimal working to give precision fitting.

Training Course

£145 or Free

A weekend training course is available at no cost when purchasing one of our Self Finish options. These weekend courses will be run four times per year based at our workshop in Forfar, Scotland. We will cover some of the key skills required including: GRP repair and bonding, Varnishing, Scarf jointing, epoxy adhesives and Steam bending. These courses are also available without purchasing a Self-Finish hull at a cost of £145 per person.
